1. In view of the response filed June 12, 2006, it is apparent that Applicant's response was to a Notice of Non-Compliant Amendment, dated June 2, 2006. However, the Notice was in error in that the Office failed to realize that the instant application was in fact, a reissue application, and the Notice was generated under the premise that the instant application was an original application. In view of the above the following is deemed applicable.
2. Applicant is notified that any subsequent amendment to the specification and/or claims must comply with 37 CFR 1.173(b).
3. The amendment filed June 12, 2006 proposes amendments to claims 1 and 6 that do not comply with 37 CFR 1.173(b), which sets forth the manner of making amendments in reissue applications. Claims 1 has been amended once, and claim 6 has been twice amended and therefore the following the rule, as directed to reissue application is provided.

An amendment paper must include the entire text of each claim being changed by such amendment paper and of each claim being added by such amendment paper. For any claim changed by the amendment paper, a parenthetical expression "amended," "twice amended," etc., should follow the claim number. Alternatively, applicant may effectively re-write a claim by presenting it as a new (fully underlined) claim with a new claim number, and canceling the old claim. Brackets and underlining are to be used to reflect only those changes in the text from the original patented text and not from any previous amendment in the reissue application. § 1.173(g).

4. A supplemental oath/declaration is required as per 37 CFR 1.175(b)(1), for the amendment filed April 6, 2006.
5. A supplemental paper correctly amending the reissue application is required.

Art Unit: 1746

6. A shortened statutory period for reply to this letter is set to expire ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this letter.

7. Claims 1-20 are allowed.
